## FONTE DE LUZ AJUSTÁVEL

Ref: 19101SHB430

### Adjustable Visual Fault Locator B430

The adjustable VFL B430 is a red laser fiber optic tester, adjustable to various output powers until 30mW. It is rechargeable via USB port and has an integrated flashlight.

## Specifications

Output power:	30 mW
Gear output:	3 (adjustable)
Interface type:	2.5mm universal interface
Output wavelength:	650nm
Charging voltage:	5V
Battery life:	5 Hours
Battery type:	lithium
Operating temperature:	-20°C ~ +60°C
Product size:	127x45x20mm
Product weight:	81g
